

November 3, 2020

Dear Family Members and Friends,

Since the number of COVID cases in Marion County increased to more than 5%, we have been required to test all staff, including the Sisters, for COVID once a week. Last week, when performing our tests, one of the staff members tested positive. The staff member is quarantining at home until she obtains two negative results. Because of this positive COVID test, we tested all staff again, as well as all the Residents on our Nursing and Assisted Living units. Fortunately, all those tests came back negative.

On November 2, we celebrated the birthday for our 103-year-old Resident, Mary Morrow, who enjoyed a beautiful homemade cake and ice-cream with a few members of her family, of course keeping in mind social distancing! Despite this restriction, a good time was had by all. Indeed, the family spirit continues among us even behind our masks!

We count on your continued help and prayerful support. Be assured of our grateful prayers for you as well. May God bless you and always keep you safe!

Gratefully yours in Christ,

Mother Francis Gabriel and the Little Sisters
