Monday, June 22, 2020

Dear Family Members and Friends,

I wanted to update you on the status of the situation here at St. Augustine Home. Last week all of our staff were tested for COVID-19. We are pleased with the results that only one staff member was found to be positive for COVID. All other staff tested negative. We thank God for the good results of the testing and His protective hand over our home.

The affected employee will not return to the home until they test negative for the virus. Because this staff member works mostly with assisted living Residents, all Residents on St. Joseph's and Holy Family units have been placed on quarantine and will be closely monitored for any signs or symptoms of COVID-19. So far, everyone is well and there is no indication of any presence of COVID among our Residents. All of us — Little Sisters, staff and Residents continue to wear face masks and respect social distancing in order to prevent the virus from entering the Home.

We also had our Infection Control Survey by the Indiana State Department of Health (ISDH) and were found to be deficiency-free. We continue to do everything we can to protect our Residents from the virus. Working in close collaboration with the Health Department, we recognize their invaluable help and expertise to remain COVID free.

Again, we thank all of you for your support and prayers for St. Augustine Home. Stay well and safe.

In Christ,

Sr. Francis Gabriel Mary and all the Little Sisters at St. Augustine Home
