Dear Family Members and Friends,

Again, we have been blessed with another COVID-free week in our Home. As discussed in our last newsletter, we give our families and friends updates as we hear from the Indiana State Department of Health (ISDH) and Marion County. There have been numerous changes that have emerged these past few weeks and there will continue to be areas of the Home's guidelines to be tweaked and changed in order to stay in compliance with the government, while also protecting our Residents. We do appreciate your patience and understanding in regards to these guideline changes.

Even though we had to reschedule all family visits outdoors, we shouldn't let this weigh our spirits down. We are looking forward to the possibility of having you in the Home to visit your loved one in a few weeks. As of right now, our outdoor visits are going wonderfully. We thank you for working with us during this time and for following the precautionary measures put into place: wearing masks, socially distancing, and washing/sanitizing hands. I know our Residents really love being able to have contact with their families and friends, while also getting some fresh air.

In closing, please know our number one priority is to keep our Residents safe; therefore, if there are questions or concerns about guidelines posted/handed out, or precautionary measures implemented, please contact us via email: updatesindy@littlesistersofthepoor.org or call 317-415-5767. Additionally, we do want to encourage you to keep abreast of the updates regarding COVID-19 by visiting Indiana.gov, the ISDH website and/or Marion County Health Department website. We will keep you informed and updated as we receive these new updates and changes from the different governmental departments.

Please be assured of our prayers for you and your family during this challenging time. May our Lord continue to keep you safe and healthy!

In Christ,

Sr. Francis Gabriel Mary and all the Little Sisters at St. Augustine Home
